-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 19, drawn to a method for procuring future real estate agreements, classified in class 705, subclass 1.
- II. Claims 20 – 29, drawn to method for collecting donations for a charitable or nonprofit entity, classified in class 705, subclass 1.
- III. Claims 35 – 48, drawn to a system for managing future real estate agreements, classified in class 705, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different invention I is directed to method for procuring agreement,

Art Unit: 3629

whereas, invention II is directed to method for collecting donations for a charitable or nonprofit entity.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different invention I is directed to method for procuring agreement, whereas, invention III is directed to system for managing agreements.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different invention II is directed to method for collecting donations for a charitable or nonprofit entity, whereas, invention III is directed to system for managing agreements.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and III, restriction for examination purposes as indicated is proper, and, the search required for Group II is not required for Group I and III, restriction for examination purposes as indicated is proper.

Art Unit: 3629

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

This application contains claims directed to the following patentably distinct species of the claimed invention:

In Group I:

Claims 2 claims third party can be charity, claim 3 claims third party can be nonprofit organization which is an academic institution, claim 5 claims third party is a religious institution, whereas, claim 6 claims third party is a fundraising entity.

Further dependent on claim 6, claim 7 claims fundraising entity can be a political party, claim 8 claims fundraising entity can be a political action committee, whereas, claim 9 claims fundraising entity is a political candidate.

Claim 15 claims agreements can be future listing agreement, claim 16 claims agreement can be representation in the purchase of a new home, claim 17 claims agreement can be for mortgage services, claim 18 claims agreement can be for title services, whereas, claim 19 claims agreement can be for homeowner's insurance services.

Art Unit: 3629

In Group II:

Claim 21 claims entity can be a charity, claim 22 claims entity can be an academic institution, whereas, claim 23 claims entity is a fundraising entity.

Claim 30 claims agreements can be future listing agreement, claim 31 claims agreement can be representation in the purchase of a new home, claim 32 claims agreement can be for mortgage services, claim 33 claims agreement can be for title services, whereas, claim 34 claims agreement can be for homeowner's insurance services.

In Group III:

Claim 40 claims agreements can be future listing agreement, claim 41 claims agreement can be representation in the purchase of a new home, claim 42 claims agreement can be for mortgage services, claim 43 claims agreement can be for title services, whereas, claim 44 claims agreement can be for homeowner's insurance services.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 3629

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 3629

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Naresh Vig whose telephone number is 703.305.3372.

The examiner can normally be reached on M-F 7:30 - 5:00 (Alt Friday off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on 703.308.2702. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
